## Academic Integrity Policy

2022

## IB Mission Statement

The International Baccalaureate (IB) aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect. To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment. These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

## Rationale

As an IB World School, Rochedale State School (RSS) embraces the mission and philosophy of the IB Organisation, which holds as a basic tenet, 'academic integrity'. We ensure that all of our policies encourage and support the development of the IB learner profile attributes. As it pertains to academic integrity, the IB learner profile states that each student must be **principled**, "*We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. We take responsibility for our actions and their consequences.*" The aim of this policy is to promote good academic practice and a school culture that actively encourages academic integrity. It is an obligation which must be embraced and fostered by the entire school community, so students continue their future life, whether in higher education or in the workplace, in strict adherence to this principle. (IBO, 2019)

As a Queensland state school, RSS also implements the academic integrity required by the Queensland Curriculum and Assessment Authority (QCAA) to approach academic responsibilities in an honest, moral and ethical way. The QCAA recognises that schools and their staff act with integrity and uphold high standards of professional conduct in adhering to procedures and guidelines.

## Definition of academic misconduct

The IB defines academic misconduct as behaviour (whether deliberate or inadvertent) that results in, or may result in, the candidate or any other candidate gaining an unfair advantage in one or more components of assessment. Behaviour that may disadvantage another candidate is also regarded as academic misconduct. (IB, 2019)

### Academic misconduct can be incurred in the following forms:

**Plagiarism:** this is defined as the representation, intentionally or unwittingly, of the ideas, words or work of another person without proper, clear and explicit acknowledgement.

**Collusion:** this is defined as supporting academic misconduct by another candidate, as in allowing one's work to be copied or submitted for assessment by another. Collusion can often be confused with collaboration. Collaboration is defined as working in groups to achieve a shared goal where members of the group are expected to participate equally, for example, Year 6 Exhibition.

**Duplication of work:** this is defined as the presentation of the same work for different assessment components.

**Paraphrasing:** this is defined as the restatement of someone's work in another form. In order for it to be allowed, the source needs to be acknowledged.

**Misconduct during an examination/assessment:** this is defined as taking unauthorised material into an examination/assessment, behaviour that disrupts the examination/assessment or distracts other students, or communicating with another student.

## Examples of misconduct include, but are not limited to:

- Taking unauthorised material into an examination/assessment (such as mobile phone, written notes, non-permissible calculator).
- Leaving and/or accessing unauthorised material in a space that may be visited during an examination/assessment.
- Using unauthorised technological devices e.g. phone or smartwatch during an exam/assessment.
- Misconduct during an examination/assessment, including any attempt to disrupt the examination/assessment or distract another student.
- Exchanging information or in any way supporting the passing on of information to another student regarding the content of an examination/assessment.
- Allowing a peer to copy your work.
- Falsifying data used in an assignment.
- Not acknowledging sources.

## Expectations

All RSS community members, including students, should aim to achieve and develop the IB learner profile attributes. From a young age, IB students are expected to be able to distinguish between what is right and what is wrong. (Refer to **Appendices 1 and 2 – Learner Profile Continuum: teacher and student versions**)

To achieve this, students regardless of age, need support from the entire school community; specifically, from the program coordinator, staff members and their teachers, but also from their parents or legal guardians. A supportive environment will encourage students to understand the importance of academic integrity and the role that this principle has in IB education. **Appropriate to their age**, students should receive support to learn how to act if they witness an incident that goes against this principle; for example, they should know who to refer to if they have doubts concerning academic integrity.

When completing schoolwork, students must also follow the subject guidelines, rules and regulations, always acknowledging the sources of information that were used and the help they have received from third parties during the process. In collaborative projects, they must exhibit a balanced behaviour recognising the collaboration of other team members and granting fair recognition to their own participation. (IBO, 2019)

## RSS promotes academic integrity when we:

- emphasise the importance of ethical academic conduct.
- develop school processes to support sound academic practice.
- ensure teachers, students and parents/carers have a clear shared understanding of expectations for academic integrity.
- explicitly teach the use of appropriate processes and materials in academic work, including an understanding of intellectual ownership of information, ideas and images.
- communicate consequences and implications of academic misconduct throughout the school community. (QCAA, 2022)

## Academic honesty at RSS refers to students:

- undertaking research honestly.
- understanding their responsibility for producing authentic pieces of work.
- respecting intellectual property by acknowledging all ideas and work of others. Source materials may include; written texts, visuals, audio, graphics, letters, lectures/presentations, interviews and maps, with the support of checklists and citing/referencing materials.
- Using information technology and social media responsibly, safely and ethically, with the support of Rochedale's, '*Digital Citizen*' posters. (Refer to **Appendix 3 – Digital Citizen** posters)
- Demonstrating ethical and honest practice during examinations/assessments.

## Student responsibilities

Students must take responsibility and integrity for their learning. They are expected to do their own work and to demonstrate honestly what they have learned. Students will demonstrate the following actions to ensure academic integrity:

- ensure that work submitted for assessment is authentically their own.
- ensure that all words, thoughts, ideas, arguments, or quotes from others are acknowledged.
- refer to support materials being a '*digital citizen*'.
- utilise positive time management skills in order to meet assessment deadlines and produce the best work possible for submission.

## Teacher responsibilities

At RSS, teachers are expected to:

- become familiar with the **Academic Integrity Policy**.
- talk to students about how to maintain academic honesty and avoid academic misconduct.
- understand the implications of academic misconduct.
- provide instruction and scaffolding on how to correctly acknowledge sources.
- role model and promote being a digital citizen using support materials (*Digital Citizen posters*).
- be role models of academic honesty and integrity in all aspects.
- provide clear guidelines on group work, especially concerning division of tasks amongst group members and ensure fairness.

## Parent and legal guardian responsibilities

- Become familiar with the **Academic Integrity Policy** and actively discuss with their children the content and related implications.
- Understand the implications of academic misconduct.
- Be aware of over scheduling and the impact this may have when aligning family schedules to children's study and assessment planners.
- Approach the school if their children need additional support.
- Recognise the role of external tutors and ensure that these tutors are aware of the School's Academic Integrity Policy. They should be aware that tutors must abide by the requirements of academic integrity when providing tuition related to assignments/assessments.

## School responsibilities

- Establishes a school culture that actively encourages academic honesty.
- All students and teachers will receive access to and an explanation of the policy.
- Understands what constitutes academic honesty and authentic pieces of work.
- Knows the investigation process and consequences of academic misconduct.
- Provide teachers and the school community with support and access to resources.
- Share with parents and carers the aim of the **Academic Integrity Policy**.
- The **Academic Integrity Policy** will be published on the School's website.

## Action to be taken in the event academic misconduct is suspected

- Student would report suspected academic misconduct to the teacher.
- The teacher, Deputy Principal, or IB Coordinator investigates suspected academic misconduct and decide as to whether academic misconduct has occurred and the extent of the academic misconduct. This involves interviewing the student and teacher and reviewing the material in question.
- If the outcome reached concludes that academic misconduct has occurred, parents will be notified.

## Review of the Policy

The policy will be reviewed across the leadership team in consultation with the teachers on a two (2) yearly cycle unless otherwise required.

*Policy endorsed 7 November 2022*

**I AM PRINCIPLED**

**I follow our iPad rules:**

- I stay seated when I'm using the iPad
- I carry the iPad with two hands
- I walk with the iPad when storing it carefully
- I only use apps my teacher has instructed me to use

**I follow our computer rules:**

- I log on and off the computer correctly
- I manage my own files
- I print only when necessary
- I give credit when I use others' ideas or images
- I search for reliable and relevant information
- I only use programs and undertake searches my teacher has instructed me to use that are directly related to my class work

I use the device in the way that I have been shown by a teacher, if I'm unsure, I ask my teacher  
I will not use my devices to threaten, upset or bully anyone

**I AM CARING**  

- I will treat my device gently
- I use my headphones when needed
- I touch only my device
- I keep my workstation area neat.

## Individual Declaration of Academic Honesty

To be completed at the end of the Exhibition process

By signing this declaration, I am confirming that I understand the meaning of 'plagiarism' and the meaning of 'collusion'.

**Plagiarism** is the presentation by a student of an assignment which has in fact been copied in whole or in part from another student's work, or from any other source (eg. published books, periodicals, or the web) without due acknowledgement in the text.

**Collusion** is the presentation by a student of an assignment that is claimed to be his or her own work, but is in fact the result in whole or in part of unauthorised collaboration with another person or persons.

I, \_\_\_\_\_ declare that, for this submitted work:

- I did not cut-and paste information from others without appropriate use of quotation marks and direct reference to their work;
- I did not re-word the ideas of others without proper and clear acknowledgement;
- I did not write ideas or suggestions that originated from others and claim these as my own;
- I did not include words from other students' work without permission.
